PREFACE

This Register contains the names of all persons who have been enrolled for at least one term as students in any of the courses of instruction in the School of Industrial Science or in the School of Mechanic Arts of the Massachusetts Institute of Technology, and whose connection with the Institute as undergraduates terminated before October 1, 1914. In general, however, the names of students who entered with classes that graduate after 1914 are not included, even when such students are not at present attending the Institute.

The addresses and occupations have been corrected in accordance with information furnished prior to April, 1915. The omission of an address indicates either that none has been supplied or that letters mailed to the last known address have been returned as unclaimed. Information regarding incorrect or missing addresses and occupations is earnestly desired by the Registrar.

In the Alphabetical Register the year number immediately following name and degrees indicates class affiliation in social affairs. In the case of graduates this is followed by Roman numeral and class year indicating the Course and year in which the student received the degree of S.B., Bachelor of Science, viz.:—

I. Civil Engineering.
II. Mechanical Engineering.
III. Mining Engineering and Metallurgy.
IV. Architecture.
V. Chemistry.
VI. Electrical Engineering.
VII. Biology and Public Health.
VIII. Physics.
IX. General Studies.
X. Chemical Engineering.
XI. Sanitary Engineering.
XII. Geology.
XIII. Naval Architecture and Marine Engineering.
XIV. Electrochemistry.
S. & L. Science and Literature.
Phil. Philosophy.
Elect. Elective.

If a graduate has received only an advanced degree from the Institute, this degree, together with the year in which it

was conferred, is indicated. In case a graduate has received not only the Bachelor's degree but also advanced degrees from the Institute, these are recorded in the order in which they were granted. Graduates of the Course for Naval Constructors are designated by the symbol XIIIA. In the case of special students the Course pursued is indicated so far as is practicable and the years of attendance are shown. Degrees received from other institutions are placed immediately after the name. Graduates and special students of the School of Mechanic Arts of the Institute are indicated in a manner corresponding with the rest of the general scheme. Parentheses, used in connection with the names, indicate, so far as is known, the usual form of signature.

The Geographical and Class Registers are intended to serve merely as indexes. For more detailed information in regard to any individual, reference may be made to the Alphabetical Register. In the Class Register names of graduates are printed in capitals and small capitals. In case a graduate affiliates in social affairs with a class other than the one with which he received his degree his name is listed with this class also and the year of his graduation is indicated in parentheses.

Particular attention is called to the various Alumni Associations, membership in which is open to all former students of the Institute, whether graduates or not. It is earnestly hoped that these organizations will constantly increase in number and influence. All persons who have been connected with the Institute are urged to identify themselves with one or more of these associations.

The editors desire to express their appreciation of the great interest shown by the Alumni in this Register and to thank all those who have rendered assistance by supplying information that otherwise would not have been obtainable. Information as to errors of any sort will be gratefully received.

THE TECHNOLOGY CLUBS ASSOCIATED.

This association was organized in New York City, January 17, 1913. Its object is to promote the general interest and social relations between the various Technology clubs and to

assist in spreading information concerning the Massachusetts Institute of Technology. General meetings, at which the place of the following meeting is to be designated, are to be held annually or as otherwise determined by the Executive Committee of the federation. The meeting in 1914 was held in Chicago, and in 1915 in Pittsburgh. In 1916 the meeting will take place in Boston.

President: JAMES W. ROLLINS, '78.

Vice-Presidents: WALTER LARGE, '79, 15 William Street, New York City; HARRY M. MONTGOMERY, '79, 137 South La Salle Street, Chicago, Ill.; E. B. RAYMOND, '90, 1624 Frick Building, Pittsburgh, Pa.; HOLLIS GODFREY, '98, Drexel Institute, Philadelphia, Pa.; PAUL W. LITCHFIELD, '96, 38 Marshall Avenue, Akron, Ohio; JAMES H. HASTE, '96, Eastman Kodak Co., Kodak Park, Rochester, N. Y.

Secretary-Treasurer: WALTER HUMPHREYS, '97, Massachusetts Institute of Technology, Boston, Mass.

Associate Secretary: HARRY A. RAPELYE, '08, 2123 Oliver Building, Pittsburgh, Pa.

THE M. I. T. WOMEN'S ASSOCIATION.

This association was organized in 1900, in Boston, Mass., and incorporated under the law of Massachusetts in 1907. Its object is to promote education, unity and good fellowship among women graduates and past students of the Institute, and to advance the cause of education and the general welfare of the women undergraduates. A Students' Aid Committee stands ready to assist these women in any emergency. The association has about one hundred and fifty members. Social meetings are held four times during the winter, and the annual meeting and luncheon is held early in January. New members are cordially welcomed. The corresponding secretary will be glad to be notified of any change in a member's address.

President: MARGARET E. DODD, '92.
First Vice-President: MARION TALBOT, '88.
Second Vice-President: MABEL K. BABCOCK, '08.
Recording Secretary: EMELINE E. TORREY, '96.
Corresponding Secretary: LILLIE C. SMITH, '06, 1 Winchester Street, Brookline, Mass.
Treasurer: ANNIE E. ALLEN, '94.

THE TECHNOLOGY CLUB OF BOSTON.

Founded in 1896 in Boston, Mass. The object of the club is to promote the welfare of the Institute and the common social interests of its past and present officers and students. The club house is at No. 83 Newbury street, nearly opposite the Rogers Building, and the membership is at present about seven hundred, including graduates and other former students, members of the Corporation and of the instructing staff, and a limited number of undergraduates.

Smoke talks are held on Tuesday evenings when possible. Annual meeting in May, between May 5 and 10.

A register of visiting alumni, whether club members or not, is kept at the club house, and may be consulted at any time. It is hoped that this may be of service in locating friends in Boston, and that visiting alumni or former students will use the book freely.

The officers for the current year are:

President: CARROLL W. DOTEN.
Vice-President: DWIGHT PORTER.
Secretary: ROBERT S. WILLIAMS, '02, 83 Newbury Street, Boston, Mass.
Treasurer: ANDREW D. MACLACHLAN, '96.
Chairman of House Committee: GEORGE A. FULLER, '97.
Chairman of Membership Committee: NATHAN R. GEORGE, JR.

The Executive Committee includes the above and the Secretary of the Faculty, *ex officio*.

NORTHWESTERN ASSOCIATION, MASSACHUSETTS INSTITUTE OF TECHNOLOGY.

This association was founded in 1887, in Chicago, Ill., and originally drew for its membership upon the whole country west of Pittsburgh. During recent years Technology associations have been formed at Detroit, Pittsburgh, Indianapolis, Milwaukee, St. Louis, San Francisco and many other points in this territory, but this association still includes a few members from Michigan, Indiana, Ohio and other points South and West of the Great Lakes where there is no local association. The present regular membership is about 300. The headquarters of the association is in Chicago, and a majority of the members are located in this city and its vicinity. All former students of the Institute are welcomed to the association, and may enjoy full privileges upon payment of dues, which are $2.00 per year for resident members,—that is, members living in Chicago or vicinity,—and $1.00 for non-resident members. The association holds informal gatherings at various clubs (including at least one outdoor summer meeting) during the year, and the annual dinner occurs towards the end of February or early in March. An annual outdoor meeting is held in June or July and officers are elected at this time. Regular luncheons are held every Tuesday at 12.30 at the Morrison Hotel, Clark street and Madison avenue. The association publishes bulletins from time to time, announcing meetings, speakers and other items of interest to the members. A directory containing addresses and occupation of all members is also published and may be obtained from the secretary.

President: KENNETH LOCKETT, '02.

Vice-President: HARRY M. MONTGOMERY, '79.

Secretary-Treasurer: GEORGE B. JONES, '05, 1444 Monadnock Block, Chicago, Ill.

Alumni Council Representative: B. R. T. COLLINS, '88.

THE ROCKY MOUNTAIN TECHNOLOGY CLUB.

This club was founded in 1889 in Denver, Colo., and originally included members from Colorado, Kansas, Wyoming, Montana, Utah and New Mexico. The impracticability of attempting to cover so large a territory and the formation of the club in Salt Lake City have caused the reduction in scope to include Colorado alone. Informal luncheons are held in the rooms of the Colorado Electric Club in the Chamber of Commerce Building on Wednesday of each week. Dinners are usually given in honor of some special event such as the visit of some man prominently associated with Tech work. An occasion of this sort crystallizes the interest of the members and ensures a good attendance and an enthusiastically successful affair. Tech men visiting Denver are cordially urged to call up the president and make their presence known.

President: GEORGE D. LUTHER, '07, 1424 Wazee Street, Denver, Colo.

Vice-President: H. O. BOSWORTH, '02.

Secretary: MARDEN W. HAYWARD, '06, 263 South Clarkson Street, Denver, Colo

Alumni Council Representative: ALLEN H. ROGERS, '90.

THE TECHNOLOGY CLUB OF NEW YORK.

The Technology Club of New York was organized in 1895. in New York City, and incorporated in 1903. From September 1, 1903, till May 1, 1909, it occupied a small club house of three stories, only one of which was devoted to club purposes, and its membership was between two and three hundred. It then obtained an adequate club house of four stories and base-

ment at 17 Gramercy Park, the two upper stories comprising rooms rented to resident and transient members, and the remainder of the house used for general club purposes including reception room, dining rooms, café, library, billiard rooms, card and writing rooms. Its membership is now about one thousand, and from fifty to seventy men dine in the house daily. Students and instructors connected with the Institute for one year or more are eligible for resident or non-resident membership. Smokers and entertainments are held monthly. The annual meeting is held on the first Saturday of May. The annual dinner is held on Saturday evening, two weeks prior to the first Saturday in February. The affairs of the club are conducted by a Board of Governors of ten members, five of whom are elected from divisions of classes for five-year terms, and five elected from the membership at large for one-year terms. As a rule members of the Board are officers or chairmen of standing committees. The organization at the present time is as follows:

THE TECHNOLOGY ASSOCIATION OF THE CONNECTICUT VALLEY.

This club was formed in 1895. The region from which the membership is drawn comprises the entire territory in, and adjacent to the Connecticut Valley. Usually a winter meeting and banquet is held at Springfield or Hartford. A summer outing is held at the Hartford Yacht Club at Fenwick, Conn. Some of the men go down on the boat the night before and enjoy a special dinner, which is served before reaching Fenwick, and the balance of the members arrive during the early morning hours. A very interesting ball game between the Hartfords and the Springfields is played at 11 A.M. Fishing, bathing, boating and other sports are enjoyed, and a shore dinner is served at 2 P.M. All Tech men not already enrolled as members, expecting to be in this territory at the time of the annual meeting, are requested to send their names to the secretary. All Technology men living within the territory named are considered members and notices are sent to them if possible.
